JSTOR is a digital library of academic journals, books, and primary source objects. JSTOR helps people discover, use, and build upon a wide range of content through a powerful research and teaching platform, and preserves this content for future generations. JSTOR is part of ITHAKA, a not-for-profit organization that also includes Ithaka S+R and Portico. For more information about JSTOR, please contact support@jstor.org.

V. *An Extract of an other Letter from Mr. James Yonge, upon the same Subjects as the former.*

Honoured Sir,

THE Anomalar Blackness of the Girl's Face, of which I sent the History, is now divided into a few dark, cloudy Specks; which appear but seldom, and nothing so livid as formerly.

I am told by a Gentleman Hunter, that he lately found in the Paunch of an Hare, two full grown young Ones among the Bowels; but almost rotten: And three *Immature Embryo's* in the *Uterus*. The former were certainly *Fetus* broke out of the Womb, &c.

Plimouth, Nov. 1.
1709.

Most Worthy Sir,

Yours, &c.

James Yonge.
